September 2020

Dear Parent/Carer

SOCIOLOGY REVIEW MAGAZINE SUBSCRIPTION 2020-21

"Sociology Review" is a magazine written especially for A Level students. It contains articles that will broaden their understanding of key theory and recent research, so that they can build subject knowledge and essential skills ready for exam time.

In the past we have recommended a similar magazines to our Psychology students and have found that the articles in the magazine have enabled students to understand A Level topics with the help of leading academics, get exam advice from the experts to improve exam technique and to apply their understanding to contemporary issues. Furthermore, this has helped students to look beyond A Levels towards relevant degrees and careers within the field. I therefore highly recommend this magazine.

We would like to invite all Sociology students to purchase a year's subscription to the magazine at a special reduced rate. As part of this subscription, students will receive four issues of the magazine in September (delivered in October), November, February and April, as well as free online resources that will help to extend their learning and revision.

A one-year subscription costs **£18**. To place an order, please make payment through your ParentPay account by Friday 9 October. **Orders received by 4pm on Wednesday 30 September will benefit from a discount of £3.**

Yours sincerely

pp

Alannah Cullen
Subject Leader for Psychology and Sociology
