### WHY ARE WE RUNNING A SUMMER SCHOOL?

Pupils leaving Primary School this year may have missed a significant proportion of Key Stage 2 face-to-face teaching and therefore be less well prepared for Secondary education than normal. We know that some students have suffered in their normal development due to the pandemic and research suggests that they are less ready for the transition to Year 7.

The summer school will give the opportunity for individual and group support so that your child is confident and better prepared for September 2021. A focus on Maths and English will make it easier for your son or daughter to access the Secondary curriculum, while their well-being will be enhanced through a range of enrichment activities designed to build self-esteem and to encourage socialising with other pupils.

### WHO IS ELIGIBLE FOR THE SUMMER SCHOOL?

All pupils who will be joining Year 7 at Waddesdon C of E Secondary School in September 2021.

### HOW MUCH WILL THE SUMMER SCHOOL COST?

The summer school will be completely free of charge, including all materials, trips and lunches each day.

### WHAT WILL THE CHILDREN BE DOING?

The summer school will focus on engaging the children in numeracy and literacy through interactive and imaginative tasks. It will also have a strong focus on group work, physical activity and creative opportunities.
