Dear Parent/Carer

Over the past few weeks with the weather becoming warmer we have seen an increase in the number of students visiting the medical room with headaches, having not brought in a water bottle. Please could you ensure that your child remembers to bring in a refillable water bottle daily.

It is also important that students have their inhalers on them at all times, especially during Games lessons when outside.

The students need to prepare properly so that they protect their skin from damage by the sun. Please support and reinforce at home what we tell the students at school about sensible precautions against sun burn, i.e. that they should use the shaded areas provided, wear a sun hat and sunglasses, apply high factor sun cream on all exposed skin regularly throughout the day and make good use of the water stations we provide. Please support us by sending your child to school with a hat, sun glasses, a water bottle and sun cream even if the weather is cloudy.

Please also note that we are unable to provide any allergy/hay fever medication to the students. Please could you therefore ensure that any medication is taken before arriving at school.

Kind regards,

Clare Leach
Medical Officer
