### Statement of intent

Our intention is that all pupils at Waddesdon, irrespective of their background, starting points or the challenges they face, achieve the best outcomes in terms of both progress and attainment. Each student at Waddesdon is nurtured to ensure they flourish academically and socially, wellbeing and ensuring they can access enriching opportunities beyond the classroom. We intend to remove potential barriers for our students and their families to ensure students attendance, participation and inclusion in the school community. Our pupil premium strategy highlights the specific actions we will take to support disadvantaged pupils to achieve that goal.

We will consider the challenges faced by vulnerable pupils, such as those who have a social worker, young careers, English as a second language regardless of whether they are disadvantaged or not, to the best outcomes for every student at the school.

High-quality teaching is at the heart of our approach, with a focus on areas in which disadvantaged pupils require the most support using our familiar fundamentals to underpin this. Teaching has the greatest impact on closing the disadvantage attainment gap, and at the same time will benefit the non-disadvantaged pupils in our school. Implicit in the intended outcomes detailed below, is the intention that non-disadvantaged pupils' attainment will be sustained and improved alongside the progress of our disadvantaged students. Both continuous professional development, and strategic decisions are led with evidence-based approaches, ensuring the maximum impact on our students. Our curriculum is broad and ambitious, meeting the needs of all our students.

High quality pastoral and personal development systems are also at the foundation of this. We foster excellent relationships between staff, students and families, ensuring all feel a sense of belonging within our community. Our core values of dignity and respect are embedded through all aspects of school life and are key to this strategy.

Our approach will be responsive to common challenges and individual needs, rooted in robust diagnostic assessment, not assumptions about the impact of disadvantage for individuals. The approaches we have adopted complement each other to help pupils excel. Narrowing the disadvantaged gap is the responsibility of every member staff at Waddesdon, and this whole school approach ensures that the outcomes of disadvantaged students are high, supported with ambitious expectations for their futures.

## Challenges

This details the key challenges that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1. Reading and English	Assessments, observations, and discussion with KS3 pupils indicate that disadvantaged pupils generally have lower levels of reading comprehension than their peers. This impacts their progress in all subjects, making accessing written texts more challenging. Students need supporting in increasing their vocabulary and oral skills, alongside their written skills, increasing their confidence in expressing their ideas. On entry to year 7, 33% of PP students were below age-related expectations for reading, compared to 23% of non-PP students. In KS2 English 40% pp students were below age-related expectations compared to 18% of non-pp students.
2. Maths attainment	The maths attainment of disadvantaged pupils is generally lower than that of their peers, and that post Covid some of our disadvantaged students are falling further behind age related expectations, especially in maths. Assessments on entry to year 7 shows that 40% of PP students are below age-related expectations, compared to 19% of non-PP students.
3. Metacognitive strategies and resilience	Our assessments, particularly student surveys show that resilience of many of our students, especially the disadvantaged needs supporting. We have seen an increase in disadvantaged students identifying social and emotional issues such as diagnosed anxiety and depression and that are subsequently struggling to remain in the classroom environment, and requiring support in this. Not all the disadvantaged students have a range of metacognitive strategies to use when they are dealing with challenging academic or social situations.
4. Waddesdon Way and Parental engagement	Assessments such as the student survey and discussion with parents show that some of our most disadvantaged students and their families feel less connected to the school environment. We continue our drive to ensure every student at Waddesdon, and their families have a sense of belonging and inclusion, and that their lives are enriched beyond the classroom.
5. Attendance	Attendance is a clear area of challenge for the school, including for disadvantaged students. Student attendance at school is key to both the feelings of belonging and in their outcomes.
6. Aspirations for the future	National research and discussions with our students highlight that our disadvantaged students need continued support to widen their aspirations for the future in education and beyond. Carers support, alongside co-curricular opportunities, will broaden the experience of these students and the carer opportunities they are exposed to
7. SEND students	We have a high percentage of SEND at Waddesdon, and 37 SEND students are in receipt of the pupil premium (30% of all pupil premium students). 16 of these have EHCPS. We will continue to ensure the work targeting disadvantaged students has a whole school focus, working alongside the enrichment department to ensure all needs of these pupils are met.

## Intended outcomes

This explains the outcomes we are aiming for **by the end of our three-year strategy plan**, and how we will measure whether they have been achieved.

Intended Outcomes	Success Criteria
All of the criteria below to be mindful of the students who fall under both SEND and disadvantaged. (Challenge 7)	
To improve progress and attainment at the end of KS4 and 5 for our disadvantaged cohort as a result of our focus on literacy and maths skills  (Addressing challenge 1 and 2)	<ul style="list-style-type: none"> <li>For our disadvantaged students to achieve a minimum progress 8 score of 0.6 (this would place us within the top 100 schools for progress of disadvantaged students in the country)</li> <li>For 43% of our disadvantaged students to achieve English and Maths grades 5+, which would reflect the 2019 figures for all students nationally</li> <li>For our disadvantaged students' progress in Year 13 to be in line with the cohort against Alps</li> </ul>
To improve resilience and metacognitive skills in our students and increase the sense of belonging of students and their families  (Addressing challenge 3 and 4)	<ul style="list-style-type: none"> <li>Student voice, learning walks and observations show students more able to regulate their own learning</li> <li>Attendance in enrichment department reduces, increasing attendance in lessons</li> <li>Student and parent surveys will report a greater sense of belonging to the school community</li> </ul>
To improve attendance in school and in lessons, for in particular our disadvantaged students.  (Addressing challenge 3 and 5)	<ul style="list-style-type: none"> <li>For our disadvantaged students' collective attendance rates to be above 95%</li> <li>For the number of disadvantaged students who are persistently absent (over 10% absence) to be under 10%</li> </ul>
To ensure students career opportunities lead to positive destinations for all students  (Addressing challenge 6)	<ul style="list-style-type: none"> <li>To ensure Ebacc entry for our disadvantaged students aligns with the % uptake for non-disadvantaged students (whole school aim for 50% of students to take a Language)</li> <li>For the majority of our disadvantaged students to continue their post 16 education at Waddesdon Sixth Form (aim for 70%)</li> <li>For our disadvantaged students in Year 13 to achieve their first-choice destination</li> </ul>

## Activity in this academic year
